Praise for Progressive.

A live power line fell on our RV, catching it on fire. It was totaled. Progressive replaced our vehicle quickly. They found us a brand new model with features that equaled or exceeded what we had before, and delivered it right to us. Everyone at Progressive was very helpful and courteous.

— TOM L., HAZELDALE, WA

When our boat was stolen and later recovered, it had been gutted—electronics, steering, and motor were gone. But from the moment I made the claim, Progressive took over. They made the process so easy. Best of all, we got a brand new boat right away.
